SUMMARY

Frontend-focused CS undergraduate at SRM University AP (CGPA: 9.07/10) with hands-on experience building and deploying full-stack applications in agile workflows. Developed **VillageConnect**, a MERN stack civic platform with real active users, integrating official Govt. of India APIs. Proficient in React.js, Node.js, and REST APIs with 200+ DSA problems solved on LeetCode. Seeking a frontend internship to build scalable, user-facing products.

PROJECTS

VillageConnect *MERN, JWT, Govt. of India APIs*

 [Code](#) |  [Demo](#)

- Rural civic platform for **7+ active users** — aggregates live govt. job, agriculture & welfare schemes via official Govt. of India APIs, replacing complex portal navigation
- JWT-secured RBAC with resident and admin dashboards; complaint box with real-time status tracking built on React, Node.js, Express, MongoDB

Expense Tracker Pro *React.js, CSS Variables, useLocalStorage*

 [Code](#) |  [Demo](#)

- Real-time budget tracking with animated utilization alerts, category-wise analytics, and custom `useLocalStorage` hook for zero data loss across sessions
- Custom glassmorphism design system with CSS variables; JSON export engine for full financial data portability across **10+ expense categories**

Personal Portfolio *React.js, Framer Motion, CSS Grid*

 [Code](#) |  [Demo](#)

- Orbital navigation hero with `AnimatePresence`-driven skill/project orbit; animated project filtering with shared layout transitions and staggered entrance animations
- Mobile-first responsive architecture with **Lighthouse score 95+** via lazy rendering and optimized asset delivery across **5+ interactive sections**
